Would you partner with us in this Gospel Ministry?

In our endeavor to advance God's Kingdom in our city, we're looking for partnerships in three areas:

The equipment of church/community Center

The Lord has blessed us with facilities in the downtown area of Offenbach (city), where we will hold our gatherings on Sunday. But from the beginning we've had a missional vision for those facilities, and our idea has been to use this space as a community center during the week. From there we'll be able to reach out to the Muslims and immigrants in our inner city (78% of population have migration background, almost 40% Muslims). The plans are already ready for a church coffee shop, a food saving/sharing ministry, art events.

Due to the War in Ukraine which brought higher building costs, the budget we had planned for the building had to change. So much so, that we had to reach into our financial reserves. Now that the building project has come to an end, we need support to equip it for it's intended purposes. This support would be limited to the year 2023.

2. The establishment of a missional after-school care center:

An after school center is a major ministry we are planning in the community center. This will be a key project since Offenbach has one of the highest birth rates in all of Germany. Since our city has a lot of people from different religions, we can expect to see a spiritual renewal if we influence people with the gospel from childhood. The good news is that the state is going to give us money to make sure the project is sustainable and we will be able to keep our freedom to share our Christian faith there. The downtown area of our city is one of the poorest areas in our state.

We then need funding support for the project phase until we receive the funds from the state (3 months after the opening). So, this support would be limited to the year 2023.

3. Church planting in Obertshausen:

Last year we celebrated the launch of a new church congregation in the city next to Offenbach, where we are running already a Christian Kindergarten. We have been able to fund 2/3 of this church plant and are praying for partnerships that will help us to fund the last 1/3. Since this is a growing church plant,

we would love our ministry partners to consider a partnership for the next 3 to 4 years. This would be helpful to grow our church and experience God's provision.

Thank you!
